MANAGEMENT DISCUSSION AND ANALYSIS

The board of Directors (the “**Board**”) of the Company is pleased to present the unaudited condensed consolidated results of the Company and its subsidiaries (collectively the “**Group**”) for the six months ended 30 September 2019 (the “**Period**”), together with the comparative figures for the corresponding period in 2018 (the “**Previous Period**”).

BUSINESS REVIEW

The Group is principally engaged in the provision of homeware export business (mainly in Europe), with approximately 5% of the total revenue in e-commerce sector in the Period. Our homeware customer portfolio is comprised of international brand owners and licensees, chain supermarkets and renowned department stores, with Europe being our major shipment destination.

During the Period, the global homeware market was clouded with the dampening consumer sentiment under the intensifying Sino-US trade frictions as well as the Brexit uncertainties. Due to the intense market competition, the business of the Group is running steadily but competitively with a thinner profit margin. When compared with the Previous Period, the revenue of the Group slightly increased to approximately HK\$28.1 million in the Period even though it was the off-season period in our industry, but the gross profit margin dropped from approximately 30.5% of the Previous Period to approximately 27.3% of the Period. The Group recorded a loss after taxation of approximately HK\$3.5 million in the Period. The most crucial factor in the increase of loss after taxation for the Period is the depreciation of the renovation of our showroom in the PRC, new equipment of the laboratory and websites of e-commerce business, which were incurred from October 2018 to February 2019. The Group recorded approximately HK\$1.4 million loss before taxation for the Period, which is the same as the Previous Period after excluding the depreciation stated above.

PROSPECT

For the second half of the year ending 31 March 2020, the Group will continue to strive to further strengthen and consolidate its leading position in the homeware market by widening our product range and continuing to participate in Ambiente Fair in Frankfurt, in which, we will launch our newly designed and developed products and will actively invite our potential and existing customers to visit our booth there. We will also invest on our brand promotion programs and will strive to bring out a consistent brand identity that reflects our core brand value and develop our brand image. The management believes that investing on brand image can bring a sustainable growth.

MANAGEMENT DISCUSSION AND ANALYSIS

In order to elevate the Group's profitability, we are committed to the enhancement of our operational efficiency and further strengthening our cost control measures. We will strive to improve our financial performance in order to cope with the adverse business environment. Our management is well-prepared to drive our business development with prudent approach. Our Group will continuously seize every opportunity to broaden our customer base, extend the range of our products and maximize the value for our shareholders.

FINANCIAL REVIEW

Revenue

The Group's revenue for the Period was approximately HK\$28.1 million, representing an increase of approximately 2.2% as compared to that of approximately HK\$27.5 million for the Previous Period. Such increase in revenue was primarily due to the increase in sales orders from a major customer during the Period.

Cost of Sales

The Group's cost of sales increased by approximately 6.8% from approximately HK\$19.1 million for the Previous Period to approximately HK\$20.4 million for the Period, which was in line with the increase in revenue for the Period.

Gross Profit

Gross profit dropped by approximately 8.3% to approximately HK\$7.7 million for the Period from approximately HK\$8.4 million for the Previous Period. The gross profit margin dropped from approximately 30.5% for the Previous Period to approximately 27.3% for the Period. It was mainly attributable to the decrease in sales orders from customers with higher profit margin during the Period.

Selling and Distribution Expenses

During the Period, selling and distribution expenses dropped to approximately HK\$3.7 million, representing a decrease of approximately 24.5%, from approximately HK\$4.9 million for the Previous Period. Such decrease was mainly attributable to 1) the decrease in staff cost because of the one-off bonus for the staff in the Previous Period; and 2) the decrease in freight and transportation charges, commission paid, advertising costs and promotion and exhibition expenses due to the Group's cost-cutting efforts during the Period.

MANAGEMENT DISCUSSION AND ANALYSIS

Administrative and Other Operating Expenses

The Group's administrative and other operating expenses increased by approximately 42.9% from approximately HK\$5.6 million for the Previous Period to approximately HK\$8.0 million for the Period. Such increase was mainly due to the increase in depreciation of property, plant and equipment.

Income Tax Expense

The Group's income tax expenses was approximately HK\$2,000, significantly decreased by approximately 96.5% as compared to that of approximately HK\$57,000 for the Previous Period, which was mainly due to the increase in costs and expenses causing the loss before tax.

Loss for the Period

The Group recorded a loss of approximately HK\$3.5 million for the Period, whilst a loss of approximately HK\$1.4 million in the Previous Period. The increase in loss was mainly attributable to the increase in the depreciation of the renovation of our showroom in the PRC, new equipment of the laboratory and websites of e-commerce business, which were incurred from October 2018 to February 2019. Excluding the abovementioned depreciation of property, plant and equipment of approximately HK\$2.1 million, the loss before taxation for the Period was approximately HK\$1.4 million, which remained unchanged from the Previous Period.

LIQUIDITY, FINANCIAL RESOURCES AND INDEBTEDNESS

The Group's treasury policy is to regularly monitor its current and expected liquidity requirements and its relationship with its bankers to ensure that it maintains sufficient reserves of cash and adequate committed lines of funding from major financial institutions to meet its liquidity requirements in the short and longer term.

MANAGEMENT DISCUSSION AND ANALYSIS

As at 30 September 2019, the Group had pledged bank deposits and bank and cash balances in aggregate of approximately HK\$31.1 million (31 March 2019: HK\$31.5 million). As at 30 September 2019, the Group's indebtedness comprised finance lease payables of approximately HK\$0.4 million (31 March 2019: HK\$0.5 million).

Gearing ratio is calculated as total debts divided by total equity as at the respective period. As at 30 September 2019, the gearing ratio was approximately 0.9%, which remained stable as compared to that of approximately 1.0% as at 31 March 2019.

As at 30 September 2019, the Group's total assets amounted to approximately HK\$51.9 million (31 March 2019: HK\$55.0 million) and net assets amounted to approximately HK\$47.3 million (31 March 2019: HK\$50.9 million).

As at 30 September 2019, current ratio and quick ratio of the Group decreased to 11.0 and 10.6 respectively, as compared to that of 12.4 and 11.9 as at 31 March 2019 respectively. This was mainly attributable to the decrease in bank and cash balances as a result of utilisation of net proceeds of approximately HK\$1.8 million during the Period.

SEGMENTAL INFORMATION

Segmental information is presented for the Group in note 4 of the unaudited condensed consolidated interim financial information.

2. BASIS OF PREPARATION

The unaudited condensed consolidated interim financial information for the Period has been prepared in accordance with the applicable disclosure requirements of the GEM Listing Rules, and with applicable Hong Kong Financial Reporting Standards (“**HKFRSs**”) issued by the Hong Kong Institute of Certified public Accountants (“**HKICPA**”). HKFRSs comprise Hong Kong Financial Reporting Standards (“**HKFRS**”), Hong Kong Accounting Standards (“**HKAS**”) and Interpretations.

The unaudited condensed consolidated interim financial information have been prepared in accordance with the same accounting policies adopted in the audited financial statements for the year ended 31 March 2019, except for the accounting policy changes that are expected to be reflected in the 2020 annual financial statements. Details of any changes in accounting policies are set out in note 3. The preparation of the unaudited condensed consolidated interim financial information in conformity with HKAS 34 requires the management to make judgements, estimates and assumptions that can affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. NOTES TO THE UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION

For the six months ended 30 September 2019

3. PRINCIPAL ACCOUNTING POLICIES

The accounting policies applied are consistent with those of the annual financial statements for the year ended 31 March 2019, as described in those annual financial statements. In the Period, the Group has applied, for the first time, the following amendments issued by the HKICPA:

HKFRS 16	Leases
HK(IFRIC) 23	Uncertainty over Income Tax Treatments
Annual Improvements to HKFRSs 2015–2017 Cycle	Amendments to HKFRS 3, HKFRS 11, HKAS 12 and HKAS 23
Amendments to HKAS 28	Long-term Interest in Associates and Joint Ventures

The accounting policies adopted are consistent with those set out in the annual financial statements for the year ended 31 March 2019. The adoption of the new/amendments to HKFRSs that are relevant to the Group and effective from the Period had no significant effects on the results and financial position of the Group for the current and prior periods except for the application of HKFRS 16 “Leases” which is effective for the Group’s annual periods beginning on or after 1 April 2019. On adoption of HKFRS 16, the Group will recognise lease liabilities in relation to leases which had previously been classified as ‘operating leases’ under the principles of HKAS 17 “Leases”. These liabilities were measured at the present value of the remaining lease payments, discounted using the lessee’s incremental borrowing rate. The associated right-of-use assets were measured at the amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised. Based on the allowed practical expedients under HKFRS 16, the lessee can elect not to apply the requirements of HKFRS 16 in respect of recognition of lease liability and right-of-use assets to short-term leases (i.e. the lease term ends twelve months or less from the date of initial application). In such cases, the leases are accounted for as short-term leases and the lease payments associated with the leases are recognized as expenses from short-term leases.

Up to the Period, all the leases of the Group were short-term and the Group decided to apply the practical expedients under HKFRS 16.

The Group has not early adopted any new or revised HKFRSs that have been issued but are not yet effective in the unaudited condensed consolidated interim financial information.
